PROFILE

Third-year Computer Science student at Tshwane University of Technology (eMalahleni Campus), specialising in front-end development and building modern, responsive, user-friendly web applications with HTML, CSS and JavaScript. Combines a technical foundation in software development with a background in visual art — drawing and painting — bringing creativity, patience and attention to detail to design and problem-solving. Also serves as a Media Specialist for two church organisations and is the founder and owner of DripCartel Clothing (est. 2025).

SKILLS

Front-End Development	HTML, CSS, JavaScript, responsive & UI/UX design
Programming & Data	Java, SQL databases, Python
Creative Arts	Drawing, painting, hand-painted apparel design
Other	Media production, customer service, teamwork, time management

WORK EXPERIENCE

Casual Employee — Studio88, Highveld Mall

November 2025 – Present

- Working part-time while continuing full-time Computer Science studies, balancing academics and employment.

Casual Employee — Pick n Pay Hyper, Klipfontein

2024 – 2025

- Worked as a casual employee alongside first year of study, building customer-service experience.

Employee — Checkers Hyper, Klipfontein
